|  | RichardBrink_Nachbericht_DACH+HOLZ22_01 | Richard Brink GmbH & Co. KG presented its established range of dewatering and roof systems at this year's DACH+HOLZ International in Hall 6 of Cologne Trade Fair Grounds. |
|  | RichardBrink_Nachbericht_DACH+HOLZ22_02 | The metal products manufacturer certainly piqued the interest of the exhibition visitors and embraced the chance to speak to people face-to-face at the booth. |
|  | RichardBrink_Nachbericht_DACH+HOLZ22_03 | The presentation of the new integrated system for green roofs was especially well received at the booth. It incorporates Richard Brink's time-proven gravel stops, a drainage element, a water storage mat and suitable planting for extensive vegetation. |
