Double-slit grating Gemini, named after the Latin for twin, was also honoured with the Best of the Best title in 2015. Thanks to its integrated stone tray, it blends discreetly into any paved surface.

Back in 2010, the Hydra Linearis longitudinal bar grating was the first product made by the metal products manufacturer based in Eastern Westphalia to receive the Red Dot Design Award. The premium stainless-steel bars measuring 7x7mm create an elegant look along the product's entire length.

The grating is also available as a curved and a heavy-duty version. The four completely different designs distinguished by the jury testify to the high standards and diversity of product development found at Richard Brink.
